

# **Assistant Professor - Land Use and Land Cover Change**

## **FLORIDA INTERNATIONAL UNIVERSITY**

The Department of Environmental Studies at Florida International University invites applications for a tenure-track Assistant Professor position to begin August 2004. We seek a geoscientist specializing in remote sensing, GIS, and geospatial techniques to study the dynamics of land use and land cover change (LULCC). Candidates who link LULCC to global issues of sustainability, natural resource management, biogeochemical cycles, and/or climate are especially encouraged to apply. The successful candidate will develop a vigorous, externally-funded research program and teach both undergraduate and graduate courses. Candidates must have a Ph.D. at the time of appointment. The Department of Environmental Studies is a young, rapidly growing, interdisciplinary unit with ties to other academic programs and research institutions. For more information visit <http://www.fiu.edu/~envstud/search.htm>, or contact Dr. Michael McClain (+1-305-348-6826; [mcclainm@fiu.edu](mailto:mcclainm@fiu.edu)). Deadline for receipt of applications is Dec. 1, 2003. We encourage applications from women and minorities. Send a cover letter, CV, selected reprints, statements of research and teaching interests, and three letters of recommendation to Chair, LULCC Search Committee, Department of Environmental Studies, Florida International University, Miami FL 33199. FIU is an EOAA employer.
